JUNIOR LEAGUE OF EL PASO, INC.

*Women building better communities*

## President's Message

### Celebrating Seventy-Seven Years of Community Involvement

"Another fresh new year is here... Another year to live! To banish worry, doubt, and fear, To love and laugh and give! This bright new year is given me, To live each day with zest... To daily grow and try to be my highest and my best! I have the opportunity once more to right some wrongs, To pray for peace, to plant a tree, And sing more joyful songs!"

- William Arthur Ward

Since 1933, the members of the Junior League of El Paso, Inc. have been committed to the mission of promoting voluntarism, developing the potential of women and improving our community through the effective action and leadership of trained volunteers. For seventy-seven years, our members have been "hitting the high note" with their commitment and passion to improve the El Paso community.

In 1901, Mary Harriman, a 19-year-old New York City debutante with a social conscience, founded the first Junior League. Moved by the suffering she saw around her, Harriman mobilized a group of 80 other young women – hence the name "Junior" League – to work to improve the squalid conditions in which immigrants were living on the Lower East Side of Manhattan. Mary Harriman's vision for improving communities by using the energy and commitment of trained volunteers caught on. Today there are over 160,000 Junior League members in 293 Junior Leagues in four countries – Canada, Mexico, the United Kingdom and the United States.

The Junior League of El Paso, Inc. continues its commitment to stay at the forefront of addressing community needs. Our commitment continues in 2010-2011 through our seven community projects and through the power of "women building better communities."

On behalf of the over 650 Active, Sustaining, and Provisional members of the Junior League of El Paso, I extend my sincere thanks and appreciation to the generous individuals and organizations in our community whose financial contributions have made our efforts and tremendous success possible. Together we can empower future generations to continue our mission for the next seventy-seven years.

With appreciation,  
Sharon Voelz  
President 2010-2011

## Community Projects

Since 1933, the Junior League of El Paso, Inc. has returned more than \$5 million to the city of El Paso through its service projects, programs and community grants. The Junior League of El Paso, Inc. will provide over \$250,000 to support its diverse community projects and programs in 2010-2011. In addition to their direct financial support, the Junior League will also commit its members to thousands of volunteer hours to service the projects listed below.

**BEAR (Because Everyone Aspires to Read)** will create a love for reading with children at various organizations in El Paso that work with families with incomes below the poverty line. Volunteers will read to the children, focus on literacy, and then present them with their own book to take home.

**Developing Dreams**, in collaboration with Centro de Salud Familiar La Fe, is designed to teach children ages 8 – 16, from lower income families, basic photography concepts. Using the art of photography, these children are given the opportunity to view the world with a broader perspective, and at the same time, build confidence, self-esteem, and hope. The year culminates with an exhibit of the participants' photography bringing a sense of accomplishment and pride.

**Field of Miracles** is a specially designed baseball field, complete with a synthetic turf, dugouts, and a press box, made for children with special needs. This beautiful field removes any physical barriers these children might face and enables them to take part in one of America's favorite pastimes.

**Food 4 Kids** feeds school-aged children who many times go hungry on the weekends for lack of food. The Junior League, in collaboration with Region 19, will provide nutritious supplemental food items for up to 100 families each week in an effort to combat hunger.

**Kids in the Kitchen** is an educational program for third and fourth graders designed to raise awareness and help reverse the increasing advancement of childhood obesity and its associated health risks. This year we are introducing a new element to the program of a fitness competition equaling the length of a marathon.

**Music Therapy for the Elderly** enriches the lives of older adults at nursing homes and adult daycare centers by providing therapeutic musical performances that foster social contact, stimulates cognitive abilities, and nurtures memory skills through vocal music reminiscent of their youth.

**Project 2013** will mentor tenth grade girls at Bowie High School, teaching them leadership skills, college preparedness, career and health education, and the importance of community service with the ultimate goal of graduating high school.
